

# Be part of Mintfest 2012

## Biked Up, Pedal Powered

Make, be, dance, pedal, shape the future

Biked Up, Pedal Powered is a stunt-bike-dance-performance devised with the Brewery choreographers and musicians. The sound is pedal-powered by the audience on a big-bike-battery which we will build in the summer. Come and find out about what you can do.

**Drop-in 26 May 3pm-5pm -  
The Brewery studio (upstairs)**

You can do a little or a lot. We are recruiting:

- Young producers and promoters
- Young musicians, designers, stage hands and costume makers
- Young mechanics/engineers to help us build a big-bike-battery
- Stunt-bike-dancers

You can just sneak in and sneak out, find out more about it or sign up for jobs. All welcome! Open to young people 12 years or over.

If you volunteer to be part of the project you will get the chance to work with professionals and mentors on event management, design and promotion, choreography and composition, and sustainable engineering.

**If you want to know more contact**

**[mandy@creativetransition.org.uk](mailto:mandy@creativetransition.org.uk) otherwise see you there!**
